Pensions

Employees can both set and adjust their contributions directly in Ben

There is a reason businesses are switching to Ben

Increase your engagement with self-serve, flexible benefits

- Self-serve enrolment for employees & their dependents, including displaying up-to-date enrolment statuses
- All benefits & their details live in Ben, allowing employees to always see what they have available to them
- With flexible allowances, employees can choose to spend on what they most value

Save time on admin with automated benefit enrolment & management

- All communication with providers handled for you by Ben - no more back and forth emails
- Joiners and leavers enrolment automated via integrations with your HRIS
- Employees will only see benefits they are eligible for based on any criteria you choose

Improve and report on benefit ROI with Ben's robust reporting suite

- Live engagement reporting to understand where you are providing your team with the most value, and where you can reduce any wasted spend
- Consolidated payroll deduction reports to ensure payrolls are always accurate and tax compliant — saving you money on taxes and expensive payroll errors

It's how great teams stay on top
